LRS Security Solutions

Your Trusted Security Partner

Since 1995, we have provided technology services and solutions that deliver business value for our clients. Our CORE Managed SIEM offering is an entry-level solution that provides a cost-effective way for clients to gain situational awareness, detect and respond to threats, and reduce overall security risk.

8 to 5 "Eyes on Glass"

CORE is designed to augment your security team and MDR solution by providing complete SIEM monitoring and tuning during business hours, along with critical alerting 24x7.

Industry Leading SIEM Platform

IBM's QRadar is the bedrock LRS will use to begin, or continue, the SIEM journey. CORE provides clients with a team of experts that ensure QRadar is tuned and managed effectively.

Multiple Licensing Model

Licensing is transparent and simplified, with Events Per Second (EPS), Flows per Minute (FPM) and Managed Virtual Server (MVS). Our team will explore the best options with you.

Call our Security team today. They'll ask you some preliminary questions about your security environment and schedule a time for a free consultation.
